

ENRICHED

The simple platform for

LCFS, CFR and 45Z programs

More money per bushel. Less hassle.

WITHOUT ENRICHED

Manual outreach. Missing signatures. Scattered records. Scrambling before every deadline.

WITH ENRICHED

Verified bushels. Audit-ready in days, not weeks. Premiums captured at scale.

Enriched turns field boundaries, land-use history, and attestations into verified premium access for grain companies and farmers, without the manual chase.

HOW IT WORKS

SEGMENT

Identify high-potential producers and eligible bushels for premium programs

INVITE

Launch targeted, branded outreach that drives fast, clear next steps

ATTEST

Collect complete producer data, signatures, and statements in one streamlined flow

TRACK

Monitor every producer from invitation through verified completion, with full visibility

THE PROBLEM

- **Producer outreach:** manual lists, endless calls, unclear status
- **Enrollment & attestations:** version control issues, and missing signatures
- **Bushel-level records:** scattered data, incomplete documentation

THE SOLUTION

- **Campaigns:** targeted outreach by plant, geography, crop year
- **Enrollments:** branded invitations, intake, and attestations
- **Records:** producer, field, and bushel data in one place

DATA & GROWER IDENTITY

- **Identity verified and locked at the source:** no second-guessing
- **Attribution preserved:** premiums go to the right producer
- **Built to scale:** add more without losing traceability
- **Audit-ready from day one:** every bushel traced back to its source
